ABOUT ME

Dedicated Cybersecurity Expert with extensive experience in network scanning, vulnerability assessment, and penetration testing. Proficient in Nexus, Metasploitable 2, SQL Injection, Forensics, and Social Engineering. Seeking to leverage expertise to contribute to a dynamic cybersecurity team.

EDUCATION

• **Secondary School Certificate (SSC)**

Science Group
Ibn Taimiya School
Graduated: 2020
GPA: [4.56]

• **Diploma in Computer Engineering (CSC)**

Cumilla Polytechnic Institute
8th Semester (Ongoing)
Graduation Expected: [2024]

RESPONSIBILITIES

- 1 Performed in-depth penetration testing, vulnerability assessments, and security audits using tools like Nexpose, Metasploitable 2, and Burp Suite, identifying potential security threats across network infrastructures.
- 2 Managed and responded to security incidents, conducting forensic investigations to analyze the root cause of breaches and minimize damage.
- 3 Collaborated with IT and development teams to integrate security measures during software development life cycles (SDLC).
- 4 Conducted security training and awareness sessions to educate staff on best practices, phishing, and social engineering risks.
